Western Corridor Plan: Otaki to Ngauranga Merge (April 2006)

This corridor generally follows the line of the current State Highway 1 and the North Island Main Trunk Railway from Otaki to Wellington.

1.1 Needs and issues

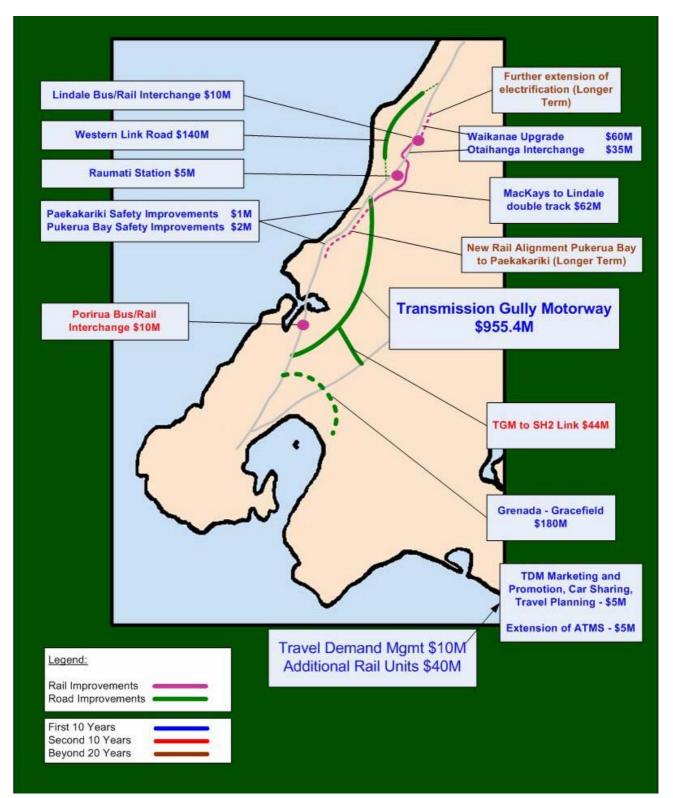

- Serious reliability, resilience and congestion problems for both rail and strategic roads
- Safety issues
- Growing population and transport demand
- The community's clear message that the current uncertainty of transport plans is unacceptable
- The need for a long term strategic solution for this corridor

1.2 Key outcomes

The Western Corridor Plan:

- Provides a safer, more reliable road and rail corridor
- Meets user expectations of a consistent regional corridor
- Reduces congestion in parts of the corridor
- Provides a balanced investment in road and Passenger Transport along with Travel Demand Management

1.3 Overview diagram

1.4 Land use integration

- Policy 1.1 Support land use that minimises road use
- Policy 1.2 Support intensification of land use around Passenger Transport nodes
- Policy 1.3 Support better integration of land use planning by identifying roading hierarchies and specifying appropriate access controls in district plans

| Action | Responsibility/ Role | Timing | Indicative Cost | Suggested Funding | Target | Performance Measure |
|---|-------------------------|---|--------------------|----------------------|-----------------------------------|-------------------------------|
| Review District Plan land use controls to align with the outcomes of the Wellington Regional Strategy, particularly in the vicinity of the junction of TGM and SH58 | PCC | Commence review following TGM and WRS decisions | Administrative | PCC | Review complete by Dec 2007 | Review reported to KCDC |
| Review District Plan land use controls to align with the outcomes of the Wellington Regional Strategy | KCDC | Commence review following TGM and WRS decisions | Administrative | KCDC | Review complete by Dec 2007 | Review reported to PCC |
| Review District Plan land use controls to align with the outcomes of the Wellington Regional Strategy | WCC | Commence review following TGM and WRS decisions | Administrative | WCC | Review complete by Dec 2007 | Review reported to WCC |

Short – medium term (2007 – 2016)

Land use and transport demand are inextricably linked. Land use is controlled by District Plans prepared by each Territorial Authority under the requirements of the Resource Management Act 1991. The Wellington Regional Strategy (growth strategy) is currently being developed and anticipated to be adopted in late 2006. With clarity expected regarding long term transport infrastructure developments as detailed in this plan and urban form directions guided by the WRS it is necessary that District Plans be reviewed to ensure alignment.

1.5 Travel Demand Management

- Policy 1.4 Apply Travel Demand Management measures to maintain and increase Passenger Transport mode share
- Policy 1.5 Manage travel demand south of Tawa

| Action | Responsibility/ Role | Timing | Indicative Cost | Suggested Funding | Target | Performance Measure |
|--|-------------------------------|---------------------------|--------------------------------------|--------------------------------------|--|--------------------------------------|
| Implement relevant initiatives of the Regional Travel Demand Management (TDM) Strategy (December 2005) | All named agencies | Ongoing | As set out in the TDM Strategy | As set out in the TDM Strategy | As set out in the TDM Strategy | As set out in the TDM Strategy |
| Develop and implement ATMS and HOV proposals | Transit (lead) PCC KCDC | To commence 2006/07 | \$5M | C2 | Proposals implemented by 2008/09 | Proposals implemented |

1.6 Passenger transport

- Policy 1.6 Maintain rail as the key Passenger Transport commuting service
- Policy 1.7 Increase rail capacity in line with demand
- Policy 1.8 Enhance accessibility to rail services
- Policy 1.9 Extend rail services to the north in line with demand
- Policy 1.10 Improve efficiency of the existing service
- Policy 1.11 Improve reliability of the existing service
- Policy 1.12 Complement rail services with local bus networks
- Policy 1.13 Provide priority to buses in congested areas
- Policy 1.14 Integrate rail and bus services

Short – medium term (2007 – 2016)

| Action | Responsibility/ Role | Timing | Indicative Cost | Suggested Funding | Target | Performance Measure |
|-----------------------------------|-------------------------|--------------------|--------------------|----------------------|-----------------|------------------------|
| Establish Lindale Rail Station | GWRC (lead) On Track | To open by 2009/10 | \$10M | 60% R & 40% C2 | Open by 2009/10 | Station open |

| Action | Responsibility/ Role | Timing | Indicative Cost | Suggested Funding | Target | Performance Measure |
|--|---------------------------------|--------------------|--------------------|----------------------|----------------------|------------------------|
| including park and ride facilities | KCDC | | | | | |
| Establish Raumati Rail Station including park and ride facilities | GWRC (lead) On Track KCDC | To open by 2008/09 | \$5M | 60% R & 40% C2 | Open by 2008/09 | Station open |
| Establish double track from MacKays to Lindale | GWRC (lead) On Track | To open by 2011/12 | \$62M | 60% R & 40% C2 | Open by 2011/12 | Track open |
| Purchase additional rail units | GWRC | By 2011/12 | \$40M | 60% R & 40% C2 | Operating by 2011/12 | Units operating |

Greater Wellington is currently undertaking detailed investigations to implement the objective of providing a 15 minute peak service frequency on this line. The outcome of this study may advance some of the timings shown above.

Long term (beyond 2016)

| Action | Responsibility/ Role | Timing | Indicative Cost | Suggested Funding | Target | Performance Measure |
|---|-------------------------|--------------------|---------------------|----------------------|----------------|------------------------|
| Improve rail alignment between Pukerua Bay and Paekakariki | On Track | Beyond 10 years | To be determined | To be determined | Not applicable | Not applicable |
| Upgrade Porirua Rail Station | PCC | Beyond 10 years | \$10M | PCC | Not applicable | Not applicable |
| Extend electrification to Waikanae | GWRC (lead) On Track | Beyond 20 years | To be determined | To be determined | Not applicable | Not applicable |

1.7 Roading

- Policy 1.15 Develop alternative routes for use in emergencies
- Policy 1.16 Partially relieve congestion south of Tawa with infrastructure
- Policy 1.17 Improve links to the Hutt Valley
- Policy 1.18 Develop a multi-lane median-divided road, tolled if necessary, along the full length of the corridor matching sustainable levels of demand
- Policy 1.19 Manage State Highway One, between MacKays Crossing in the north and Mungavin Interchange in the south, consistent with it's long term purpose of a scenic access route

Short – medium term (2007 – 2016)

| Action | Responsibility/ Role | Timing | Indicative Cost | Suggested Funding | Target | Performance Measure |
|---|--------------------------------------|---|--|---|---|--|
| Proceed with geotechnical work on Transmission Gully to address cost risk issue | Transit | 2006/07 | Included in TGM estimate | C3 | Considered by Transit Board by June 2007 | Report considered and advised to RLTC |
| Develop a corridor management plan for SH58 east of Pauatahanui consistent with this plan | Transit (lead) PCC HCC UHCC | 2006/07 | Allowed for in draft State Highway Forecast 2006/07 | N | Considered by Transit Board by June 2007 | Report considered and advised to RLTC |
| Undertake all necessary preparatory work to ensure Transmission Gully Motorway (TGM) can be built as soon as practicable | Transit | From 2006/07 | Included in TGM estimate | C3 | Preparations complete by 2010/11 | Preparations complete |
| Construct TGM as a toll road | Transit | From 2011/12 | \$955M | 2% C2 42% C3 12% Toll funded loan 44% Crown loan | Open by 2015/16 | Road complete |
| Install a median barrier along the Coastal section of Centennial Highway | Transit | From 2006/07 | \$17M | C2 | Barrier installed by 2007/08 | Barrier installed |
| Construct Western Link Road stage 1 | KCDC (lead) Transit | Progressively developed and opened up to 2011/12 | \$113M | 53% N, 37% R & 10% L | Fully open by 2011/12 | Road complete |
| Construct Western Link Road stage 2 | KCDC (lead) Transit | Progressively developed and opened up to 2013/14 | \$42M | 53% N, 37% R & 10% L | Fully open by 2013/14 | Road complete |
| Implement safety improvements in Pukerua Bay | Transit (lead) PCC | From 2006/07 | \$2M | C2 | Safety improvements complete by 2007/08 | Improvements complete |

| Action | Responsibility/ Role | Timing | Indicative Cost | Suggested Funding | Target | Performance Measure |
|--|------------------------------|---|---------------------|--------------------------|--|---|
| Construct Western Link Road stage 3 | KCDC (lead) Transit | Progressively developed and opened up to 2009/10 | \$19M | 53% N, 37% R & 10% L | Fully open by 2009/10 | Road complete |
| Develop the Waikanae upgrade project | Transit (lead) KCDC | Commence development 2011/12 | To be determined | C2 | Development underway | Progress reported to RLTC |
| Develop and construct Otaihanga Interchange | Transit (lead) KCDC | To open 2015/16 | \$35M | C2 | Open by 2015/16 | Interchange complete |
| Install traffic signals at SH1/Paekakariki | Transit | 2006/07 | \$1M | C2 | Signals operating by June 2007 | Signals operating |
| Investigate opportunities to incorporate Tawa Interchange upgrade in the scope of the Gracefield – Grenada project | Transit (lead) WCC | Project development to commence from 2006/07 | To be determined | N | Study complete by June 2008 | Reports considered by relevant Authotities and RLTC |
| Design, obtain consents and construct Grenada to Gracefield link stage 1 | Transit (lead) WCC HCC | Project development to commence from 2006/07 | \$180M | 3% C1 72% C2 25% L | Construction complete by 2014/15 | Road complete |

Long term (beyond 2016)

| Action | Responsibility/ Role | Timing | Indicative Cost | Suggested Funding | Target | Performance Measure |
|--|--------------------------------------|--------------------|---------------------|----------------------|-------------------------|---------------------------------|
| Commence construction of the Waikanae upgrade project | Transit (lead) KCDC | Beyond 10 years | To be determined | To be determined | Development underway | Progress reported to RLTC |
| Upgrade SH58 between TGM and SH2 | Transit (lead) PCC UHCC HCC | Beyond 10 years | To be determined | To be determined | Development underway | Progress reported to RLTC |
| If appropriate upgrade Tawa Interchange to address safety issues | Transit | Beyond 10 years | To be determined | To be determined | Development underway | Progress reported to RLTC |

1.8 Walking and cycling

Policy 1.20 Implement relevant initiatives of the Regional Pedestrian Strategy (May 2004)

Policy 1.21 Implement relevant initiatives of the Regional Cycling Strategy (May 2004)

| Action | Responsibility/ Role | Timing | Indicative Cost | Suggested Funding | Target | Performance Measure |
|---|-------------------------------|---------|---------------------|-----------------------------|--|---------------------------------|
| Ensure appropriate opportunities are taken to include walking and cycling improvements into all projects | RCA's | Ongoing | To be determined | Included in project budgets | Walking and cycling infrastructure demonstrably improved | Progress reported to RLTC |
| Investigate inclusion of walking and cycling safety works on current coastal route consistent with the present and future function of the road | Transit (lead) PCC KCDC | 2006/07 | To be determined | Administrative | Reported to authorities by December 2006 | Progress reported to RLTC |
